

## Announcement: Publish a Product Data-Sheet as PDF

Not all product data-sheets (PDSs) have a PDF. To auto-generate a PDF for any PDS is a function that brands, retailers and consumers like, even though the information is the same as what can be found on the Icecat website. So, we're working on a "Generate a PDF data-sheet" download option for Open Icecat brands.

Here are the requirements voiced:

- A PDF consists of two pages with the PDS info
- Product information to be included:
  - Brand logo
  - Family logo (if present)
  - Title
  - The link to the original PDS
  - Basic product information (brand name, product family, product name, product code)
  - Bullet points with features
  - Full product name
  - Marketing text
  - Product specs
  - Product images (max 2)
  - Feature logos (max 3)

On the second page:

- Specs if there are too many for the 1st page
- GTIN code(s)
- Powered by Icecat logo and a disclaimer text
