

NEW: more user-friendly Icecat LIVE version update

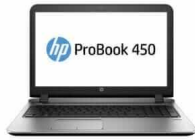

In July 2018, Icecat introduced the new Icecat LIVE look and feel. Icecat users were asked to check their implementation settings and make the necessary changes to switch to the new Icecat LIVE.

Until now, the old Icecat LIVE look and feel was still available. However, from the 13th of November, the old look and feel is phased out: users who will make a call to the previous version of Icecat LIVE will automatically get the new look and feel as well.

Visual impression new Icecat Live look & feel

Below you can see an example of the new Icecat LIVE look and feel:

HP ProBook 450 G3 2.5GHz i7-6500U 15.6" 1366 x 768pixels Black,Grey Notebook

Reasons to buy

Intel® Turbo Boost Technology

Higher Performance When You Need It Most

Intel® Turbo Boost Technology 2.01 accelerates processor and graphics performance by increasing the operating frequency when operating below specification limits. The maximum frequency varies depending on workload, hardware, software, and overall system configuration.

Intel® Quick Sync Video Technology

Create, Edit, and Share Video in a Flash

Intel® Quick Sync Video uses the dedicated media processing capabilities of Intel® Graphics Technology to make video encoding tasks—such as creating DVDs or Blu-ray discs, creating and editing 3D videos, converting 2D video files into 3D, and converting video for portable media players and social networking sites—faster and easier.

Intel® Small Business Advantage (Intel® SBA)

Solutions to Help You Focus on Your Small Business

Intel® Small Business Advantage (Intel® SBA) helps small businesses without a managed network manage security and productivity issues. This solution helps maintain and protect PCs automatically so that you can focus on running your business.

Intel® Small Business Advantage (Intel® SBA) helps small businesses without a managed network manage security and productivity issues. This solution helps maintain and protect PCs automatically so that you can focus on running your business.

Recommendation: update your Icecat Live call

For reasons of maintainability, we recommend you to check – and if necessary – update your scripts to formally call the new Icecat LIVE look and feel.

Script in the old version call:

```
< script src = "http://live.icecat.biz/js/live-current" ></ script >
```

Script in the new version call:

```
< script src = "http://live.icecat.biz/js/live-current-2.js" ></ script >
```

Other code that might need check and revision:

Review Call using Brand + Brand Product Code

```
        < html >
          < head ></ head >< body >
            < div id = "Test" ></ div >
              < script >
                window.addEventListener('liveload', function() {
                  IcecatLive.getDatasheet("#Test", {
                    Brand: {Brand name},
                    PartCode: {Brand Product Code},
                    'UserName': {Your Icecat Username},
                    }, 'en');
                });
              </ script >
            < script src = "http://live.icecat.biz/js/live-current-2.js"
              ></ script >
            </ body >
          </ html >
```

Review Call using GTIN (EAN, UPC)

```
        < html >
        < head ></ head >< body >
        < div id = "Test" ></ div >
        < script >
window.addEventListener('liveload', function() {
    IcecatLive.getDatasheet("#Test", {
        'GTIN': {Product GTIN},
        'UserName': {Your Icecat Username},
        }, 'en');
    });
</ script >
< script src = "http://live.icecat.biz/js/live-current-2.js"
        ></ script >
        </ body >
        </ html >
```

Review Call using Icecat Product ID

```
        < html >
        < head ></ head >< body >
        < div id = "Test" ></ div >
        < script >
window.addEventListener('liveload', function() {
    IcecatLive.getDatasheet("#Test", {
        'IcecatProductId': {Icecat Product ID},
        'UserName': {Your Icecat Username},
        }, 'en');
    });
</ script >
< script src = "http://live.icecat.biz/js/live-current-2.js"
        ></ script >
        </ body >
        </ html >
```
